# Get Connected. Stay Connected.

## Society of Technical Communication

DALLAS-FORT WORTH  
**Lone Star  
Community**  
STC

# Your Community

## What is LSC?

The DFW Lone Star Community (LSC) of the Society for Technical Communication (STC) consists of 350+ technical writers, web designers, graphic designers, usability specialists and more in every industry.

The LSC is an all-volunteer organization. We encourage members to contribute their time and talent to further the community's goals while gaining valuable experience through various volunteer opportunities.

## What is STC

STC is a national association of technical communicators who strive to improve their job skills, create recognition of their field with industry leaders and further their careers. With more than 15,000 members and 140 chapters on four continents the STC remains committed to serving its members.

# Get Connected

## Benefits for New Members

### Mentoring Program

Connect to LSC!

Pair with an experienced member to learn the fundamentals of LSC, gain new confidence and sharpen your skills.

### Monthly Meetings and Speakers

Connect to your future!

LSC's monthly meetings attract members and guests from throughout the metroplex. All programs feature speakers who provide their expertise to enhance your knowledge as a technical communicator.

### Networking

Connect to your peers!

Use our online Help Desk and monthly meetings to share ideas with your peers and make vital business contacts.

### Professional Growth

Connect to your training!

LSC offers an array of opportunities for professional growth, from telephone and web seminars to special interest groups. Attend conferences and seminars to get further insight into STC or continue your academic career with one of LSC's members-only scholarships. Student memberships are also available for future technical communicators.

# Stay Connected

## Benefits for Active members

### Volunteer

Connect to your community!

LSC's active members make the organization a success. They volunteer on planning committees, scholarship committees and serve their fellow members as mentors. Their efforts make the difference!

### Leadership Opportunities

Connect to your team!

LSC offers many leadership positions for members. Serve as an officer or chair a committee. These offices allow members to develop valuable leadership techniques and planning experience.

### Employment Services

Connect to your career!

Members have access to numerous services that benefit them as they cultivate their careers. Post job openings, search the database or find salary statistics relative to your field.

### Publications

Connect to your professional field!

Members receive *Technically Write*, LSC's award winning monthly newsletter, and STC's two publications: the monthly magazine *Intercom* and quarterly journal *Technical Communication*. All members have the opportunity to write, edit or design graphics.
